Overview & Resources

The School Performance Reports reflect the New Jersey Department of Education's (NJDOE) commitment to providing parents, students, and school communities with a large variety of information about each school and district. These reports can be used as a tool to help evaluate whether all students have equitable access to high quality education. We encourage you to use these reports to:

- **Learn** more about the school and the district
- **Start conversations** with school community members and ask questions
- **Engage** with school communities to identify where schools are doing well and where they can improve

Important Notes for 2021-22 Reports: The 2021-22 School Performance Reports include nearly all data that was previously reported prior to the COVID-19 pandemic, such as assessment results and accountability data. However, the 2021-22 reports will not include student growth as measured by median student growth percentiles (MSGPs) because individual student growth percentiles (SGPs) were not calculated for the 2021-22 school year due to lack of prior test results for the 2019-20 and 2020-21 school years. The student growth section of the reports will include a link to an alternate measure of academic progress that will be used for accountability determinations for the 2021-22 school year. As data over the last three years was impacted by the pandemic in various ways, the NJDOE recommends caution in comparing data from year to year.

School Performance Report Resources: The NJDOE has several resource documents that can help you understand and use the School Performance Reports, which can also be found under the "Resource Documents" link at the top of the page:

Demographics

Enrollment data reflects enrollment reported at the end of the school year and only includes students attending the school. Students that attend programs at other schools or outside of the district are not included in enrollment counts and percentages.

Enrollment Trends by Grade

This table shows the number of students enrolled by grade for the past three school years. Any students enrolled outside of the grades offered will be included in the total enrollment.

Grade	2019-20	2020-21	2021-22
KG	71	86	63
1	80	76	84
2	76	82	74
3	68	69	82

Enrollment Trends by Student Group

This table shows the percentage of students by student group for the past three school years. 2019-20 was the first year that data was collected for non-binary/undesigned gender and, as a result, data may not be a true representation of the student population. Additionally, to protect student privacy, gender percentages for 2019-20 are rounded to the nearest 0.5 and percentages for 2020-21 and 2021-22 may show a range, depending on the overall school population size.

Student Group	2019-20	2020-21	2021-22
Female	50.0%	51.0%	53.0%
Male	50.0%	49.0%	47.0%
Non-Binary/Undesignated Gender	<1%	≤1%	≤1%
Economically Disadvantaged Students	17.0%	6.1%	15.9%
Students with Disabilities	13.6%	9.6%	11.6%
English Learners	7.3%	7.6%	5.2%
Homeless Students	0.0%	0.2%	0.0%
Students in Foster Care	0.2%	0.0%	0.2%
Military-Connected Students	0.2%	0.4%	0.7%
Migrant Students	0.0%	0.0%	0.0%

Enrollment by Racial and Ethnic Group

This table shows the percentage of students by racial and ethnic group for the past three school years.

Racial And Ethnic Group	2019-20	2020-21	2021-22
White	32.2%	30.5%	28.7%
Hispanic	34.7%	35.0%	35.5%
Black or African American	7.0%	7.6%	8.0%
Asian	17.7%	20.6%	20.3%
Native Hawaiian or Pacific Islander	4.5%	2.5%	1.6%
American Indian or Alaska Native	0.0%	0.0%	0.0%
Two Or More Races	3.9%	3.8%	5.9%

Demographics

Enrollment data reflects enrollment reported at the end of the school year and only includes students attending the school. Students that attend programs at other schools or outside of the district are not included in enrollment counts and percentages.

Enrollment Trends by Full/Half Day PK and KG

This table shows number of students in full day and half day Pre-Kindergarten (PK) and Kindergarten (KG) for the past three school years.

Grade	2019-20	2020-21	2021-22
KG - Half Day	0	0	0
KG - Full Day	71	86	63

Demographics

Enrollment data reflects enrollment reported at the end of the school year and only includes students attending the school. Students that attend programs at other schools or outside of the district are not included in enrollment counts and percentages.

Enrollment by Home Language

This table shows the percentage of students by primary home language. Only the top 5 languages with at least 1% of students are shown, and students with other home languages are included in the Other Languages total. To see this data in a table, click the Table View option below the chart.

Student Growth

Student growth is a measure of how much students are learning each year. New Jersey's ESSA state plan outlines that academic progress will be measured with school's median student growth percentile (mSGP) on statewide ELA and mathematics assessments. Each individual student receives a Student Growth Percentile (SGP) for English Language Arts (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7. The SGP measures their academic progress from one year to the next compared to other students with similar prior test scores (academic peers).

Important Note for 2021-22 Reports: The calculation of mSGPs relies on one to two consecutive years of prior assessment results to calculate individual student growth percentiles. Due to the cancellation of the NJLSA in both 2019-20 and 2020-21, SGPs were not calculated for 2019-2020, 2020-2021, or 2021-2022. The 2021-22 reports will not include any mSGP data.

The NJDOE received approved through the [COVID-19 State Plan Addendum](#), to use an alternative method to calculate academic progress for the 2021-22 school year based on aggregate score improvement on the NJSLA at the schoolwide and student group level between 2018-2019 and 2021-2022. For 2021-22, the NJDOE measured academic progress in ELA and mathematics using Relative School Improvement Measure (RSIM). Results of the RSIM measure are available on the [NJDOE's Accountability page](#) under 2022 Accountability Data.

Academic Achievement

This section of the reports includes results on statewide assessments, including the New Jersey Student Learning Assessment (NJSLA), the Dynamic Learning Maps (DLM), and the ACCESS for ELLs assessment. For more information about New Jersey's statewide assessments, see the [NJDOE's Assessment page](#).

Important Note for 2021-22: NJSLA data is not available for 2019-20 or 2020-21 due to federal waivers and assessment cancellations and DLM and ACCESS for ELLs data is not available for 2019-20. As data over the last three years was impacted by the pandemic in various ways, the NJDOE recommends caution in comparing data from year to year.

English Language Arts and Mathematics Performance Trends

These graphs show trends in the Proficiency Rate for Federal Accountability over the last three years. The data includes the results of students taking both the New Jersey Student Learning Assessment (NJSLA) and the DLM alternate assessment for English language arts (ELA) and mathematics. The Proficiency Rate for Federal Accountability measures the percentage of students that met or exceeded expectations on the assessments (NJSLA or DLM) with an adjustment made if the participation rate is below 95% to ensure reporting on at least 95% of students. Students that were enrolled for less than half a school year are excluded from performance results. The table below provides participation rates, proficiency rates, annual targets and status in meeting the targets, and statewide proficiency rates.

Important note for 2021-22: Due to the cancellation of statewide assessments in 2019-20 and 2020-21, statewide assessment results are not available for the 2019-20 and 2020-21 school years.

English Language Arts Assessment - Participation and Performance

This table shows performance on statewide assessments for English language arts (ELA) both overall and by student group. It includes the results of students taking both the NJSLA and DLM assessments. NJSLA results include only students in grades 3 through 9. Students that were enrolled for less than half a school year are excluded from performance results. Student are considered to have met or exceeded expectations if they score at Level 4 or 5 on the NJSLA assessment or at Level 3 or 4 on the DLM assessment.

This table shows both the percentage of students that met or exceeded expectations and a proficiency rate used for federal accountability. The proficiency rate for federal accountability will be lower if the participation rate is below 95%. This table also shows progress towards meeting the state's long term goal of 80% proficiency by 2032. Annual targets are specific to each subgroup, school, and district and represent the expected proficiency needed to stay on track to meet the state's long term goal. Student groups where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see the [NJDOE Accountability page](#). More information and additional data can also be found on the [NJDOE Academic Achievement page](#).

Mathematics Assessment - Participation and Performance

This table shows performance on statewide assessments for mathematics both overall and by student group. It includes the results of students taking both the NJSLA and DLM assessments. NJSLA results include students taking end-of-grade assessments in grades 3 through 8, as well as end-of-course assessments (Algebra I, Geometry, Algebra II) in middle school and high school. High school mathematics assessment results include all results for Algebra I and Geometry and/or Algebra II results only for students who took Algebra I in middle school and who are enrolled in their first high school mathematics course that corresponds to an end-of-course assessment. Students that were enrolled for less than half a school year are excluded from performance results. Student are considered to have met or exceeded expectations if they score at Level 4 or 5 on the NJSLA assessment or at Level 3 or 4 on the DLM assessment.

This table shows both the percentage of students that met or exceeded expectations and a proficiency rate used for federal accountability. The proficiency rate for federal accountability will be lower if the participation rate is below 95%. This table also shows progress towards meeting the state's long term goal of 80% proficiency by 2032. Annual targets are specific to each subgroup, school, and district and represent the expected proficiency needed to stay on track to meet the state's long term goal. Student groups where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see the [NJDOE Accountability page](#). More information and additional data can also be found on the [NJDOE Academic Achievement page](#).

Academic Achievement

This section of the reports includes results on statewide assessments, including the New Jersey Student Learning Assessment (NJSLA), the Dynamic Learning Maps (DLM), and the ACCESS for ELLs assessment. For more information about New Jersey's statewide assessments, see the [NJDOE's Assessment page](#).

Important Note for 2021-22: NJSLA data is not available for 2019-20 or 2020-21 due to federal waivers and assessment cancellations and DLM and ACCESS for ELLs data is not available for 2019-20. As data over the last three years was impacted by the pandemic in various ways, the NJDOE recommends caution in comparing data from year to year.

Mathematics Assessment – Performance Trends

This graph shows the percentage of students who met or exceeded expectations on each grade level or end-of-course exam on the New Jersey Student Learning Assessment (NJSLA) for Mathematics for the past three years.

Important note for 2021-22: Due to the cancellation of statewide assessments in 2019-20 and 2020-21, statewide assessment results are not available for the 2019-20 and 2020-21 school years. Additionally, end-of-course assessment results for Geometry and Algebra II for 2018-19 and prior years included all students in middle school and grades 9 and 10. The requirements for high school testing changed in 2021-22 so that students are only required to take the NJSLA once in high school. Therefore, 2021-22 data for Geometry and Algebra II may not be comparable to data from 2018-19.

† Grade level results do not include students who took the Algebra I, Geometry, or Algebra II end of course tests.

English Language Proficiency Test - Participation and Performance

This table shows, by years in district, the number of English learner students taking the ACCESS for ELLs 2.0 Assessment for English language proficiency and the percentage of students tested that received an overall score of 4.5 or above. Students must receive a score of 4.5 or higher to be considered for proficient status.

Years in District	# Students Tested	% Students with Overall Score Below 4.5	% Students with Overall Score 4.5 or Above

English Language Progress to Proficiency

This table shows the percentage of English Learners who demonstrated the expected amount of growth on the ACCESS for ELLs 2.0 Assessment for English Language proficiency. A student's expected growth is based on the student's initial year proficiency level and student growth expectations are increased by equal intervals each year so that the student meets the proficiency cut score of 4.5 within five years. The table shows the annual target for the percentage of students making expected growth and whether that target was met.

Student Group	Percent of English learners making expected growth to proficiency	Annual Target	Met Target?
Schoolwide/English Learners	89.5%	**	**

† Target was met within one standard deviation.

Climate and Environment

Student absences provide important information about a school's culture and climate. Research shows that absences impact a student's ability to succeed in school. The New Jersey Department of Education used input from New Jersey communities to select chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, whether excused, unexcused, or for disciplinary action, is considered absent unless permitted by state statute or regulations. Students with fewer than 45 days in membership are excluded from attendance calculations.

Important Note for 2021-22: The NJDOE recommends caution in comparing the 2021-22 chronic absenteeism rates with the rates from 2020-21 and rates prior to 2019-20 as the pandemic has impacted attendance rates over the last three years.

Chronic Absenteeism

This table shows the number and percentage of students in grades K-12 both overall and by student group who were chronically absent during the school year. The last two columns show the chronic absenteeism state average for students in the grades offered and whether the rate for each student group was above the state average ("Not Met") or less than or equal to the state average ("Met").

Climate and Environment

The New Jersey Department of Education collects data through the Student Safety Data System (SSDS). In addition to the data below, NJDOE is required, under ESSA, to report on the most recent, publicly-available Civil Rights Data Collection (CRDC) data, which can be found on the [NJDOE School Performance webpage](#). Please note that prior to school year 2017-2018, the CRDC and the State collection system, EVVRS, did not collect the same data elements. In an effort to better align the State system with the CRDC, the new Student Safety Data System (SSDS) collects all the required CRDC data elements. NJDOE is in the process of developing a reporting function for the SSDS which will allow LEAs to use the same data for both submissions.

Important note for 2021-22: The NJDOE recommends caution in comparing the 2021-22 student safety data with the data from 2020-21 and 2019-20 as the pandemic impacted the data from those years.

Violence, Vandalism, HIB, and Substance Offenses

This table shows the number of incidents reported by type. A single incident may be counted under multiple incident types. The total unique incidents row provides an unduplicated count of incidents. The last row shows the rate of incidents for every 100 students enrolled.

The New Jersey Department of Education collects data through the Student Safety Data System (SSDS). In addition to the data below, NJDOE is required, under ESSA, to report on the most recent, publicly-available Civil Rights Data Collection (CRDC) data, which can be found on the [NJDOE School Performance webpage](#). Please note that prior to school year 2017-2018, the CRDC and the State collection system, EVVRS, did not collect the same data elements. In an effort to better align the State system with the CRDC, the new Student Safety Data System (SSDS) collects all the required CRDC data elements. NJDOE is in the process of developing a reporting function for the SSDS which will allow LEAs to use the same data for both submissions.

Important note for 2021-22: The NJDOE recommends caution in comparing the 2021-22 student safety data with the data from 2020-21 and 2019-20 as the pandemic impacted the data from those years.

Harassment, Intimidation, and Bullying (HIB) Investigations

This table shows, by the nature of the incident, the number of alleged and confirmed Harassment, Intimidation, and Bullying (HIB) investigations. The nature of an incident is based on the protected categories listed below, and the nature of a single HIB investigation may include multiple categories. All confirmed incidents must have an identified nature.

HIB Nature (Protected Category)	HIB Alleged	HIB Confirmed	Total HIB Investigations
Race	N	N	N
Religion	N	N	N
Ancestry	N	N	N
Gender	N	N	N
Sexual Orientation	N	N	N
Disability	N	N	N
Other	N	N	N
No Identified Nature	N	N	N

Student Disciplinary Removals

The first table shows, by removal type, the number and percentage of students who received disciplinary removals during the school year. Removal types include students receiving one or more in-school suspensions, one or more out-of-school suspensions, one or more suspension of any type, removal to another school or other educational program, expulsion with no further educational services, or arrest. The second table shows the total number of days missed due to out-of-school suspension for all students during the school year.

Removal Type	Number of Students	Percent of Students	School Days Missed due to Out-of-School Suspensions
In-School Suspensions	*	*	
Out-of-School Suspensions	*	*	*
Any Suspension	*	*	
Removal to other education program	0	0.0%	
Expulsion	0	0.0%

Climate and Environment

School Day

This table shows the start and end times and length of school day for a typical student at this school. Instructional time is the amount of time that a typical student was engaged in instructional activities under the supervision of a certified teacher. Full time students attend this school for more than half of the school day and shared-time students attend the school for half of the school day or less.

Category	School
Typical Start Time	8:25 AM
Typical End Time	3:10 PM
Length of School Day	6 Hrs. 45 Mins.
Full Time - Instructional Time	5 Hrs. 50 Mins.
Shared Time - Instructional Time	N

Device Ratios

This table shows the student to device ratio, which is the number of students in grades PK-12 per device, including devices designated for instruction, testing, and remote learning. Devices are computers such as tablets, iPads, laptops and Chromebooks. The count includes only devices that meet nationally recommended specifications for online testing and digital learning in grades PreK through 12. This information comes from the elective NJTRAX survey and reflects data submitted as of October 2022, therefore data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device policy may appear to have a very low student to device ratio due to this policy decision.

School Year	Student to Device Ratio
2021-2022	2.9:1

Student Access to Technology and Internet

In response to the COVID-19 pandemic, the NJDOE began collecting information on student device types, device owners, and internet connectivity during the 2020-2021 school year. [Additional reports about student access to technology and internet connectivity](#), as of the end of the 2021-2022 school year can be found on the NJDOE website.

Staff

Staff data reflects teachers and administrators reported by districts at the beginning of the school year.

Key terms for staff data:

Teachers: All classroom teachers

Administrators: Principals, assistant principals, supervisors, coordinators, directors, and other central-office administrators, as well as superintendents and other district-level administrators.

Experience: Experience is based on information submitted by districts on all their staff members. For purposes of this report, the ESSA Educator Equity and federal reporting requirements, NJDOE has defined teachers as "inexperienced" if they have fewer than four years of prior experience in a given district. The tables below report on "experienced" teachers and administrators for federal reporting purposes.

Out-of-Field: A teacher is labeled "out-of-field" if they are potentially teaching outside their area of certification. This could occur if the teacher cannot be found in the NJDOE's certification system, if their job code does not match their certification, or if the teacher has an expired certificate.

Teachers – Experience

This table shows information about the experience of teachers assigned to this school and across the state. No teachers in New Jersey are teaching under emergency or provisional credentials as defined by the United States Department of Education. The number of out-of-field teachers is the number of teachers who are potentially teaching outside of their area of certification.

Category	Teachers in School	Teachers in State
Total Number of teachers	31	118,773
Average years experience in public schools	12.1	12.5
Average years experience in district	10.8	11.3
Percentage of Teachers with 4 or more years experience in the district	67.7%	76.0%
Number of out-of-field teachers	0	2,937

Administrators – Experience (District Level)

This table shows information about the experience of administrators assigned to this district and across the state.

Category	Admin. in District	Admin. in State
Total Number of administrators	17	9,578
Average years experience in public schools	14.9	16.5
Average years experience in district	7.9	12.6
Percentage of Administrators with 4 or more years experience in the district	70.6%	78.8%

Staff Counts

This table shows the number of staff members assigned to the school, district, and state across several staff categories. The staff counts in this table reflect data submitted by districts to NJ SMART and reflect any teachers assigned and are not based on full-time equivalent (FTE). Additionally, some staff members may be assigned to the district only, but work in multiple schools in the district. In these cases, the table may show 0 staff members assigned to the school, even though there are district staff members working in the school.

Staff Category	School: Total Staff Members	District: Total Staff Members	State: Total Staff Members
Teachers	31	170	118,773
Administrators	1	17	9,578
Librarians/Media Specialists	1	4	1,212
Nurses	1	3	2,911
School Counselors	1	7	4,324
Child Study Team Members	N	15	9,115
School Psychologists	N	3	2,159
School Social Workers	N	2	2,487
Student Assistance Coordinators	N	1	372
School Safety Specialists	N	1	694

Teachers and Administrators – Demographics

This table compares the percentage of students, teachers, and administrators by gender and by racial and ethnic group. 2019-20 was the first year that data was collected for non-binary/undesignated gender and, as a result, the data may not be a true representation of the student or staff population. Additionally, to protect student privacy, gender percentages for 2019-20 are rounded to the nearest 0.5 and percentages for 2020-21 and 2021-22 may show a range, depending on the overall school population size.

Per-Pupil Expenditures

Per-Pupil Expenditures by Source

The table below summarizes the most recently available expenses for regular and special education students taught at schools in the district. The amounts include both actual personnel and actual non-personnel expenditures and include expenditures for instruction, support services, administration, operations and maintenance, and extra-curricular activities. An overall cost per pupil for a given school can be calculated by adding the Central Expenditures and the Expenditures Not Assigned to a School to the School Level Expenditures reported for that school. The Average Daily Enrollment (ADE**) comes from the 2021-22 School Registry Summary (SRS).

For more information regarding this table please refer to the guidance for school level reporting, which is available on the NJDOE webpage [NJDOE webpage ESSA School Level Reporting Information](#). More in-depth information about district and charter school spending can be found in the [User Friendly Budget](#) and the [Comprehensive Annual Financial Report \(CAFR\) and Auditor Management Reports \(AMRs\)](#).

Please be aware that the total district expenditures represented in these reports are taken from audited district financial data, but the subsequent allocation of these resources to specific schools is not audited or otherwise verified by the New Jersey Department of Education. If you have specific questions about the assignment (or lack of assignment) of school-level amounts, please contact the district for additional information.

[Link to District Summary of 2021-22 School-Level Per Pupil Expenditures by Source](#)

An option to [download all school-level summaries by district](#) in one spreadsheet is also available. However, because districts have flexibility in how certain costs are allocated to individual schools, school-level costs should not be compared between schools in different districts.

Accountability

New Jersey's Every Student Succeeds Act (ESSA) Accountability System New Jersey's school accountability system identifies schools that are in need of comprehensive and targeted support as required by the Every Student Succeeds Act (ESSA). Based on New Jersey's [approved ESSA state plan](#), NJDOE will identify schools in the following four federal categories every three years:

- **Comprehensive Support and Improvement (CSI): Overall Low Performing:**
 - Schools with a summative score in the bottom 5% of Title I schools.
- **Comprehensive Support and Improvement (CSI): Low Graduation Rate:**
 - High schools with a four-year graduation rate of 67% or less
- **Additional Targeted Support and Improvement: Low Performing Student Group (ATSI):**
 - Schools with one or more student group with a summative score that would be in the bottom 5% of Title I schools
- **Comprehensive Support and Improvement (CSI): Chronically Low Performing:**
 - Title I schools identified as Additional Targeted Support and Improvement; Low Performing Student Group (ATSI) that are identified for three or more consecutive years, i.e. ATSI schools that do not meet exit criteria.
 - The NJDOE has not yet identified schools in this category as no ATSI schools have been in status for three or more years.

Annually, NJDOE will identify schools in the following federal category:

- **Targeted Support and Improvement: Consistently Underperforming Student Group (TSI):**
 - Schools with one or more student groups that missed annual targets or standards for all indicators for two years in a row

For purposes of ESSA accountability, only schools and student groups with data for 20 or more students are included in calculations.

For more information about New Jersey's accountability system, how indicator and summative scores were calculated, how federal accountability status is determined, and additional data, see the [NJDOE accountability page](#).

Important Note for 2021-2022: Due to the COVID-19 pandemic, New Jersey received waivers from the United States Department of Education (USED) in both [March 2020](#) and [March 2021](#) that waived accountability-related requirements in the Elementary and Secondary Education Act (ESEA) for the 2019-2020 and 2020-2021 school years. These waivers removed the requirements to:

- Calculate indicator scores and summative scores for the 2019-2020 and 2020-2021 school years;
- Measure progress toward long-term goals and measures of interim progress for accountability indicators for the 2019-2020 and 2020-2021 school years; and
- Identify schools for comprehensive and targeted support and improvement during the 2020-2021 and 2021-2022 school years (based on 2019-2020 and 2020-2021 data, respectively).

As a result of these waivers, any school that was identified for comprehensive or targeted support and improvement during the 2019-20 school year will retain the same status for the 2021-22 and 2022-23 school years.

The NJDOE identified schools across four categories during the 2022-23 school year (based on 2021-22 data):

- CSI: Overall Low Performing;
- CSI: Low Graduation Rate;
- ATSI; and
- TSI.

For the TSI identification that occurred during the 2022-23 school year, status in meeting annual targets for the 2018-19 and 2021-22 school years were used since data was not available for two consecutive years.

Additionally, all schools that were previously identified were eligible to exit status at the end of the 2022-23 school year if the NJDOE's Exit Criteria were met.

The NJDOE received approval to make a one-time change to the identification timeline under the COVID-19 State Plan Addendum. Under the approved Addendum, the NJDOE will identify schools for CSI and ATSI status in both fall 2022 and fall 2023. Schools identified for CSI or ATSI status in fall 2022 will be eligible to exit status in fall 2023 if all exit criteria are met. Schools identified for TSI status will be eligible to exit annually if exit criteria are met.

ESSA Accountability Status

The table below provides the school's federal school status for the 2023-24 school year, the category (or reason) for identification, the year the school is eligible to exit status, and, if applicable, the student groups identified for support. For additional information, the [NJDOE ESSA Accountability webpage](#) includes a list of all schools requiring comprehensive or targeted support and improvement with the amount of School Improvement Aid (SIA) funds received and information on exit criteria for identified schools.

Student Group Status: Students with Disabilities	
Student Group Status: English Learners	

† This flag is used if a school is identified for Comprehensive Support and Improvement, but one or more student groups met criteria for Targeted Support and Improvement.

ESSA Accountability Progress

The table below shows performance on each of New Jersey's ESSA accountability indicators for the last three years.

ELA and Math Proficiency: Percentage of students who met or exceeded expectations on statewide assessments (NJSLA or DLM)

ELA and Math Growth: For 2021-22 only, this data shows the Relative School Improvement Measure (RSIM), which is based on aggregate scale score improvement on the statewide assessments in ELA and mathematics (NJSLA), when comparing prior year performance to 2021-22 performance. Schools are assigned a percentile rank based on their improvement as compared to schools with similar prior year performance. This is only measured for grades 3-8. The NJDOE plans to resume measuring growth by mSGP in 2022-23.

Four- and five-year graduation rates: The adjusted cohort graduation rate

Progress toward English Language Proficiency: The percentage of English Learners who demonstrated the expected amount of growth on the ACCESS for ELLs Assessment for English Language proficiency.

Chronic absenteeism: The percentage of students that were absent for 10% or more of the days enrolled during the school year.

Important Note for 2021-22: The NJDOE received federal waivers that waived certain assessment and accountability-related requirements for the 2019-20 and 2020-21 school years. As a result, proficiency, growth, and progress toward English language proficiency data is not available for 2019-20 or 2020-21 and chronic absenteeism data is not available for 2019-20. The growth measure used for 2021-22 is an alternate measure used because median student growth percentiles were not available for 2021-22. The NJDOE plans to resume reporting median student growth percentiles in 2022-23. As data over the last three years was impacted by the pandemic in various ways, the NJDOE recommends caution in comparing data from year to year.

ESSA Accountability Indicator	2019-20	2020-21	2021-22
ELA Proficiency			68.3%
Math Proficiency			49.6%
ELA Growth			45
Math Growth			7
4-Year Graduation Rate†			
5-Year Graduation Rate†			
Progress toward English Language Proficiency			89.5%
Chronic Absenteeism		1.5%	9.3%

† This table shows the most recent graduation rate for reference, but accountability calculations for a given year use the prior year's graduation rate.

Accountability

Accountability Indicator Scores and Summative Ratings - 2021-22 School Year

New Jersey developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Comprehensive Support and Improvement. This table shows the indicator scores for each indicator included in the accountability system and the weight that each indicator receives when calculating the overall Summative Score. The Summative Rating is the percentile rank of the Summative Score as compared to other schools across the state. Schools with a summative score in the bottom 5% of Title I schools or with a four-year graduation rate of 67% or less are identified as requiring Comprehensive Support and Improvement. For more information about New Jersey's accountability system and how these indicator scores were calculated, see the [NJDOE Accountability page](#).

ESSA Accountability Indicator	Score	Weight
ELA Proficiency Indicator Score	77.24	17.5%
Math Proficiency Indicator Score	63.24	17.5%
ELA Growth Indicator Score	41.12	25.0%
Math Growth Indicator Score	11.35	25.0%
4-Year Graduation Rate Indicator Score	N	N
5-Year Graduation Rate Indicator Score	N	N
Progress toward English Language Proficiency Indicator Score	**	**
Chronic Absenteeism Indicator Score	73.33	15.0%
Summative Score	48.70

Accountability

Accountability Summary by Student Group - 2021-22 School Year

The NJDOE is required under ESSA to identify schools for Targeted Support and Improvement (TSI) and Additional Targeted Support and Improvement (ATSI). Both TSI and ATSI identifications are based on how student groups within schools perform. Schools are identified for ATSI if they have at least one student group that has a summative score that would be in the bottom 5% of Title I schools if it was its own school. Schools are identified for TSI if they have at least one student group that missed annual targets or standards for all indicators for two years in a row. Only student groups that have data for at least 20 students are included in the accountability determinations.

In the table below, the first three columns show information on the identification for ATSI. It shows the summative score for each student group, the cut-off score that was used to identify schools for comprehensive support and improvement (CSI), and whether the school (and student groups) have been identified as requiring ATSI. The remaining columns in the table show whether the student group met annual targets or standards for all indicators for the 2021-22 school year. If at least one student group did not meet all targets and also did not meet all targets in the 2018-19 school year, then the school will be identified as requiring TSI.

For more information about accountability determinations, indicators, and annual targets, see the [NJDOE Accountability page](#).

Narrative

This section allows schools and districts to share highlights, achievements, and other important information about programs, activities, and services that are offered in their own words. Please note that the narrative is optional, so only categories in which the district chose to share information will be displayed. If there are questions about the information provided in the narrative section, please contact the school or district directly.

Highlights:

- Our elementary school teachers and students pivoted to all-remote instruction to finish the school year, utilizing a mix of existing online platforms establishing new, thoughtful, flexible practices.
- Social Emotional Learning strategies in our elementary programs complimented teachers' abilities to connect with students based on their interests and needs through core academic areas and elsewhere.
- Special needs students have in-class support and resource rooms with sensory areas to help them regulate and to be open to learning. Research based materials allow students access to state standards.
